**ENERGY SMART
TECHNOLOGY[®]**

Oxlife LIBERTY2[®]

Portable Oxygen Concentrator

Combining **2.0 LPM continuous flow** oxygen with the most **pulse mode settings available (1-10)**, the Oxlife LIBERTY2 POC empowers you to deliver better, more versatile patient oxygen therapy with a single device.

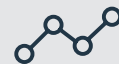

**Up to 2.0 LPM
continuous flow**

Settings 1-10
highest pulse dose
available

24/7 remote monitoring
with DNA Technology[®]

**Asset management
and loss prevention**
with GPS technology

Dual billing
for stationary and POC
(E1390 & E1392)

Compact,
lightweight
wearable design

Patented
Energy Smart[®]
Technology

Patient-friendly,
easy-to-use
interface

Three-year
warranty

DNA TECHNOLOGY®

Remote asset & clinical monitoring

O₂ Concepts' proprietary, device-initiated connectivity solution

GPS-enabled inventory control and loss prevention technology

24/7 remote monitoring for device performance

Easily access data from any device via secure, cloud-based platform

Proactively promote enhanced patient therapy adherence

Reduce field calls with intuitive customer support resources

Manage hospital DME closet inventory with device Geofence

OXLIFE LIBERTY2[®] PRODUCT SPECIFICATIONS¹

Dimensions	Height:9.9" • Width:9.9" • Depth:3.8"
Weight	Device:6.35lbs
Battery Duration	Upto 4.5hours
Battery Recharge Time²	Under2.5hours on AC or DC
Oxygen Concentration	87% - 95% at sea level at all settings
Pulse Flow Settings³	1 - 10 with bolus size 8 - 80mL
Continuous Flow Settings	0.5 LPM to 2.0 LPM
AC Power	Input: 100-240VAC, 50/60Hz @2.5amps Maximum Power Consumption: 150W
DC Power	Input: 11.5 - 15V, 10A Maximum Power Consumption: 120W

¹ O₂ Concepts[®] reserves the right to revise specifications at any time without notice ² Battery recharge time will increase if unit is operating on DC power while charging

³ Bolus size based on 20 breaths per minute

Smarter, more efficient and more reliable oxygen therapy than ever before

A legacy of design innovations, cutting edge technology and unparalleled support

Relied upon by leading academic and research medical centers, and by hospital groups and homecare providers nationwide

The most cost-effective device & operating model

A simplified, effective hospital/clinic discharge process

The ability to remotely monitor and locate every device in your fleet

Designed for the reliability and durability needs of the DME industry
